

## Coast Mat Rush

<b>Name</b>	<b>Scientific</b>	<i>Lomandra maritima</i>
	<b>Common</b>	Coast Mat Rush
<b>Description</b>		A grass-like <u>perennial</u> (meaning it lives for several years) growing in large clumps, up to 60cm tall.
<b>Leaves</b>		The leaves are flat, up to 60cm long and 1-2mm wide. They become straw-coloured and coiled as they age.
<b>Flowers</b>		Flowers are purple and yellow. Male and female flowers are produced on separate plants. Flowers from August to October.
<b>Fruits</b>		A dark brown capsule is produced at the bottom of the leaves.
